

EGE UNIVERSITY

*A Pioneer in Science with a Rich Heritage
and a Strong Research Focus*

EGE ÜNİVERSİTESİ YERLEŞKESİ

A Research University, Ready to Partner

It was a pleasure meeting you at the EAIE Conference. As a follow-up to our conversation, we are pleased to share a brief overview of Ege University — one of Türkiye's most established institutions of higher education, officially designated a "Research University" and the first in Türkiye to receive Full Institutional Accreditation. Since 1955, Ege has combined broad academic scope with a strong record of international collaboration, and we see real potential to build on that together.

70+ Years of Academic Heritage	53,633 Total Students	2,935 Academic Staff	20 Faculties
11 Institutes	35 Application & Research Centers	896 Laboratories	47 / 118 Partner Countries / Institutions

Breadth Across Disciplines

- ▶ Engineering — 9 departments, incl. Electrical & Electronics, Computer, Bioengineering
- ▶ Health Sciences — Medicine, Dentistry, Pharmacy, Nursing
- ▶ Natural & Applied Sciences, incl. Astronomy & Space Sciences
- ▶ Agriculture & Fisheries / Aquaculture
- ▶ Economics, Administrative Sciences & Social Sciences
- ▶ Humanities, Communication, Tourism, Fine Arts & Design

Infrastructure for Collaboration

- ▶ EGE Technopark Technology Development Zone
- ▶ EGE Incubation Center
- ▶ Central Research Test & Analysis Laboratory
- ▶ Central Library — 253,000+ print works, 800,000+ e-books
- ▶ Full hospital, outpatient clinic & dental hospital on campus
- ▶ 10 campuses across Izmir; state and private dormitories

Already a global network: Ege University holds bilateral cooperation agreements with 47 countries and 118 institutions, and currently hosts 2,261 international students — a foundation we would welcome extending through new Erasmus+ partnerships and joint research consortia, including Horizon Europe.

WAYS TO PARTNER WITH US

Mobility • Research Consortia • Joint Programs

Whether your institution is exploring student and staff mobility, or looking for a well-resourced academic partner for a research consortium, Ege University offers a broad and flexible base for cooperation.

Student & Staff Exchange

- ▶ Active Erasmus+ partner, EU-funded mobility for students and staff
- ▶ 2,261 international students currently on campus
- ▶ State-run and private dormitories, plus flexible off-campus housing
- ▶ 88 active student clubs and a full calendar of Erasmus Days events
- ▶ Central Library and Eduroam access available to all incoming students
- ▶ Dedicated International Relations team to support new and renewing agreements

Research & Innovation Consortia

- ▶ Experience contributing to nationally- and EU-funded research projects
- ▶ 896 laboratories and 35 application/research centers across disciplines
- ▶ EGE Technopark and Incubation Center for applied & industry-facing R&D
- ▶ 5,608 postgraduate research students supporting active projects
- ▶ Engineering, health sciences, agriculture and natural sciences all research-active
- ▶ Open to co-developing Horizon Europe and other multilateral proposals

Let's take it further: rather than starting with formal paperwork, we would welcome a short introductory call between our academic coordinators to map out concrete, mutually beneficial focus areas — whether that means a mobility agreement, a joint proposal, or both.

Why Izmir

Ege University is based in Izmir, a safe, coastal metropolis on Türkiye's Aegean coast that connects Europe and Asia. It combines a Mediterranean quality of life with a strong academic ecosystem — an easy city for incoming students, staff, and visiting researchers to settle into.

EXCELLENCE IN GLOBAL EDUCATION

Study and Teach in English at Ege University

As a designated Research University with over 70 years of academic heritage, Ege University is strongly committed to internationalization. To seamlessly integrate incoming exchange students, degree-seekers and visiting faculty, we offer competitive, globally recognized degree programs fully instructed in English — alongside a bilingual model across the rest of our faculties (see following page).

100% English-Medium Degree Programs

Faculty of Engineering

- ▶ Biomedical Engineering
- ▶ Electrical and Electronic Engineering
- ▶ Food Engineering
- ▶ Civil Engineering
- ▶ Chemical Engineering
- ▶ Mechanical Engineering
- ▶ Textile Engineering

Faculty of Computer and Information Sciences

- ▶ Computer Engineering
- ▶ Artificial Intelligence and Data Engineering

Faculty of Letters (Humanities)

- ▶ American Culture and Literature
- ▶ English Language and Literature
- ▶ English Translation and Interpretation

Faculty of Economics & Administrative Sciences

- ▶ Economics
- ▶ Business Administration
- ▶ International Relations

Erasmus+ ready

English-medium instruction

2,261 international students

BEYOND ENGLISH-MEDIUM PROGRAMS

Language Should Never Be a Barrier to Partnership

The programs on the previous page are fully instructed in English from first year to graduation. Across the remainder of our 20 faculties, degree programs are delivered in Turkish with a bilingual model layered on top — and this is not a limitation for partnership.

Roughly 30% of coursework in these bilingual programs is generally delivered in English. In practice, this fully supports incoming Erasmus+ exchange students, and English remains the working language for research, publications, and joint projects such as Horizon Europe — regardless of a faculty's primary language of instruction.

In short: whether a faculty teaches fully in English or bilingually, it is equally open to student and staff exchange and to English-language research collaboration. The following pages list every bachelor's, master's, doctoral, and associate's program across our 20 faculties, for your complete reference.

Erasmus+ ready — all faculties

Bilingual coursework, 20 faculties

English as research working language

STUDY AT EGE UNIVERSITY

Health Sciences

Faculty of Medicine

- Medicine (Basic, Clinical, Surgical Medical Sciences) ■■■

Faculty of Dentistry

- Dentistry ■■■

Faculty of Pharmacy

- Pharmacy ■■■

Faculty of Nursing

- Nursing ■■■

Faculty of Health Sciences

- Nutrition and Dietetics ■■■
- Physiotherapy and Rehabilitation ■■■
- Midwifery ■■■

Faculty of Sport Sciences

- Physical Education and Sports Teaching ■■■
- Coaching Education ■■■
- Sports Management ■■■

Graduate School of Health Sciences

- All Medical & Health Programs ■■

Graduate School of Drug Addiction, Toxicology and Drug Science

- Addiction & Drug Sciences ■■

Educational Sciences

Faculty of Education

- Computer Education and Instructional Technology ■■■
- Educational Sciences ■■■
- Elementary Education (Pre-school / Primary School) ■■■
- Mathematics and Science Education ■■■
- Special Education ■■■
- Turkish and Social Sciences Education ■■■

Natural And Applied Sciences

Faculty of Engineering

- Computer Engineering ■■■
- Electrical and Electronics Engineering ■■■
- Food Engineering ■■■
- Chemical Engineering ■■■
- Civil Engineering ■■■
- Mechanical Engineering ■■■
- Textile Engineering ■■■
- Bioengineering ■■■
- Leather Engineering ■■■

Faculty of Science

- Astronomy and Space Sciences ■■■
- Biology ■■■
- Physics ■■■
- Chemistry ■■■
- Mathematics ■■■
- Statistics ■■■
- Biochemistry ■■■

Faculty of Agriculture

- Field Crops ■■■
- Horticulture ■■■
- Plant Protection ■■■
- Agricultural Machinery and Technologies Engineering ■■■
- Agricultural Structures and Irrigation ■■■
- Agricultural Economics ■■■
- Animal Science ■■■
- Soil Science and Plant Nutrition ■■■
- Dairy Technology ■■■

Faculty of Fisheries

- Aquaculture / Fisheries Engineering ■■■

Faculty of Computer and Information Sciences

- Information Systems and Technologies ■■■

Graduate School of Solar Energy

- Renewable Energy Technologies ■■

Graduate School of Nuclear Sciences

- Nuclear Applications & Technology ■■

International Computer Institute

- Advanced Computer & IT Programs ■■

Ege Vocational School

- Computer Programming /
Mechatronics / Automotive
Technology / Electronics / Machinery/
Accounting ■

Aliğa Vocational School

- Refinery and Petrochemical
Technology / Chemical Technology /
Machine Equipment ■

Atatürk Health Services Vocational School

- Audiometry / Dialysis / Opticianry/
First and Emergency Aid / Medical
Laboratory Techniques / Child
Development ■

Bayındır Vocational School

- Landscape and Ornamental Plants /
Interior Design / Civil Technology ■

Bergama Vocational School

- Computer Programming /
Tourism and Hotel Management /
Occupational Health and Safety ■

Emel Akın Vocational School

- Apparel Manufacture Technology /
Textile Technology ■

Ödemiş Vocational School

- Crop Production and Marketing/
Dairy and Products Technology /
Medicinal and Aromatic Plants ■

Social Sciences

Faculty of Economics and Administrative Sciences

- Economics ■■■
- Business Administration ■■■
- International Relations ■■■

Faculty of Letters (Humanities)

- Turkish Language and Literature ■■■
