

International Week

Engineering and Educational Technologies 2025

We are delighted to announce the International Week organised in Kaunas, Lithuania by Lietuvos Inžinerijos Kolegija Higher Education Institution on 5-9 May, 2025

This week is intended for educators and researchers to:

- *share good practices*
 - *exchange ideas*
 - *enhance international communication skills*
 - *foster partnerships among universities*
-

Traditionally, during the International Week, an International **Scientific Conference Engineering and Educational Technologies 2025** will be held.

Participation in the International Week **may be funded through Erasmus+ Staff Teaching/Training grants** provided by the participant's home institution.

For any further information, feel free to contact us at: **international@lik.tech**

Registration
