

Green Chemistry Applications on Medicinal and Aromatic Plants: *Hypericum* and *Ruscus* Species

International Symposium on Green Chemistry Applications on Medicinal and Aromatic Plants: *Hypericum* and *Ruscus* Species (GreenChemMap 2024) will be held **in-person** on October **16-18 2024** in Artvin, Türkiye. Symposium website: <https://greenchemmap.artvin.edu.tr>

This symposium is organized by Artvin Çoruh University, Türkiye and is one of the outcomes of a project (No. 2022-1-TR01-KA220-HED-000089361) which has been supported by Erasmus+ Cooperation partnerships in the field of higher education (KA220-HED). The partners of the project are as follows: University of Turin, Italy, University of Galati, Romania, University of Chemistry and Technology Prague, Czechia, Institute for Single Crystals of National Academy of Sciences, Ukraine, and Agricultural University of Georgia, Georgia.

The GreenChemMap symposium is open to **oral presentation** on relevant contributions covering pharmacological and biological activity-related aspects and green chemistry applications on medicinal and aromatic plants: *Hypericum* and *Ruscus* species. We seek contributions that consider (but are not limited to) the following topics:

- Agricultural Practices of *Hypericum* and *Ruscus* Species
- Biodiversity & Biochemistry & Biotechnology
- Biology & Cancer Research & Immunology & Antioxidant Activity
- Botany & Ethnobotany & Ethnopharmacology
- Essential Oils & Secondary Plant Metabolites
- Functional Foods
- Green Chemistry Applications & Processing Technologies
- Natural Cosmetics & Aromatherapy & Phytoteraphy & Phytochemistry
- Pharmacognosy & Phytopharmacology & Toxicology
- Standardization & Quality

We would highly appreciate your participation and early abstract submission.

Please send your abstract (up to 300 words) including your name, affiliation, and contact information and a short bio (up to 100 words) to: greenchem@artvin.edu.tr by **21 June 2024**.

All abstracts should be prepared according to the template given bellow and sent to the official e-mail of the symposium as a Word document. The results of the evaluation of the abstracts will be notified to you by e-mail after the blind peer review. Accepted abstracts will be published in a conference abstract book on the official website of the symposium.

Authors who are interested in publishing their full papers as part of the symposium proceedings book should send them to the official e-mail of the symposium as a Word document by **1 September 2024**.

The presenters will have 20 minutes to introduce the content of their study followed by 10 minutes for a Q&A session.

The participation in the symposium is **free of charge**. However, travel and accommodation expenses belong to the participants. Further information can be accessed on the symposium's website.

We look forward to meeting you all in Artvin, Türkiye.

Assoc. Prof. Dr. Mustafa Kemal GÜMÜŞ, Artvin Çoruh University

On Behalf of the Organising Committee

The poster for the Green Chemistry International Symposium 2024 features a light blue background with a green and orange color scheme. The main title 'Green CHEMISTRY' is prominently displayed, with 'Green' in a green script font and 'CHEMISTRY' in a bold, orange, sans-serif font. Below the title, the subtitle 'Applications on Medicinal and Aromatic Plants: Hypericum and Ruscus Species' is written in green and orange. The event dates '16-18 October 2024' and location 'Artvin, Türkiye' are highlighted in a green and orange banner. The bottom of the poster includes logos for Green Chem, Artvin Çoruh University, Galatasaray University, University of Chemistry and Technology Prague, Università di Torino, and the European Union, along with the text 'Funded by the European Union'.

The Topics:

- Agricultural Practices
- Antioxidant Activity
- Biodiversity & Biochemistry & Biotechnology
- Biology & Cancer Research & Immunology
- Botany & Ethnobotany & Ethnopharmacology
- Essential Oils & Secondary Plant Metabolites
- Functional Foods
- Green Chemistry Applications
- Natural Cosmetics & Aromatherapy
- Phytoteraphy
- Phytochemistry & Pharmacognosy
- Phytopharmacology Toxicology
- Processing Technologies
- Standardization
- Quality of *Hypericum* and *Ruscus* Species
